Very good. Here's what you sent with a new slide 10 to frame the long list of chemicals that follows. There are also two comments in the notes section of slide 10 – Vince

Importance: High

Thanks, Kacee!

I made all but one change and have included a response or two below in red – just FYI and in case others have/had similar comments.

REVISED VERSION ATTACHED.

Did you have any comments on my first two questions?

Thanks!
G

Questions:

Should I include more info about topics we are considering for the workshop to discuss the 2014 NRC report?
Should I be including anything on endogenous or the second HCHO workshop?
Should I included a slide on the 5-year workplan?? (I have one drafted and in there at the end).

Hi Gina – thanks for sharing. I have a few suggested edits and comments.

General comment: Add slide numbers to all slides done

Ex. 5 Deliberative Process (DP)

Importance: High

Hi ladies – Looping you both in.
Think Sam and Vince are at a meeting so I thought I'd send on to you rather than waiting.
I have 20 mins on the Agenda at tomorrow's SAB/CAAC panel meeting for the review of TMBs to talk about "Upcoming Activities in the IRIS Program".
The audience here is the CAAC, so I am mostly talking to them about what chemicals they will see in the future.

Comments welcome.

Subject: PLEASE REVIEW ASAP!!! --- TMB panel presentation.PEROVICH.06.13.14.V2.pptx

General approach:

My first goal was to cover upcoming meetings.
Started with bimonthlies.
Covered peer review.
Covered proposed NRC workshop.
Shifted to chemicals the CAAC would see next, starting with EtO and B[a]P and then continued based on the preliminary packages released so far.
I attempted to characterize a bit about each chemical.
I included a primer on the new document structure. I intend to emphasize the following point: the content, structure and format of IRIS chemical assessments are evolving as the recommendations of the NRC are addressed and the enhancements are implemented.

Questions:

Should I include more info about topics we are considering for the workshop to discuss the 2014 NRC report?
Should I be including anything on endogenous or the second HCHO workshop?
Should I included a slide on the 5-year workplan?? (I have one drafted and in there at the end).
